- Two panels zip onto the Bumperchute canopy enclosing the Command Post.
- Clear vinyl windows provide additional light and allow a complete view of the scene.
- The center opening, edged in velcro for easy closure, allows personnel ready access in or out of the Command Post canopy.
- Reflective trim increases nighttime visibility.
- Storm loops on the ZipR Shield panels can be used to attach guy points; sand bags are included with each ZipR Shield to weight the guy lines if necessary.
- Each ZipR Shield comes with its own stuff bag for easy storage.
- ZipR Shield protective panels are available for Bumperchute Command Post models FR BT.

We use the finest quality materials and USA craftsmanship to manufacture the very best Bumperchute products. Importantly, we offer a 100% money back guarantee against manufacturing defects.
